

WOODS *New* DISC HARROWS

A complete line of disc harrows for
gardens, food plots, specialty crops,
nurseries, small acreage farms

WOODS

There's nothing like the smell of fresh-turned dirt, especially when you're doing what you love... working the land.

Whether you're breaking new ground for a garden, or tilling an existing nursery, food plot, vineyard or farm, Woods has the right – the best – disc harrow for your land. You will get years of productive, reliable, dirt-turning work.

Built with high-strength U.S. steel, these rugged disc harrows carry Woods' reputation for durability and reliability. Plus, these new discs are easy to use due to innovative design features like individually adjustable disc gangs that reposition with a single pin.

Woods' Advantage

- Made in America from U.S. steel
- Individual disc gangs adjust easily with one pin
- Rugged, high-strength steel frame and gangs mean years of worry-free performance
- Independent disc gangs angle from 0 to 21 degrees to match your soil type and tilling job
- Heavy down force makes each blade dig deeper, work harder in one pass

Standard-Duty

Models

- DHS48** 48-inch
- DHS64** 64-inch
- DHS80** 80-inch

Options:

- Mud scrapers that prevent clogging, increase productivity
- Furrow fillers (DHS64, DHS80)

Tapered frame design balances individual disc gangs for easy adjustments

Medium-Duty

Models

- DHM80** 80-inch
- DHM96** 96-inch

Options:

- Furrow fillers to reduce end ridges
- Rear drawbar for towing equipment
- Mud scrapers that prevent clogging, increase productivity

Heavy-Duty

Models

- DHH108T** 108-inch
- DHH126T** 126-inch
- DHH144T** 144-inch

Additional features and options:

- Advanced offset/tandem blade gangs leave an even finish across entire width – no center ridge
- Extended tongue design allows tight turns without hitting tractor tires
- Simple ratchet jack levels unit from front to back
- Optional rear drawbar for towing equipment
- Optional mud scrapers and furrow fillers to increase productivity

WOODS' TOP TILLING TIPS

- Notched blades bite into the ground; smooth blades leave a finer finish
- Individual disc gangs easily adjust to match your job: Sharper angles work the dirt more aggressively
- Optional adjustable mud scrapers continuously clear debris, prevent clogging
- Optional furrow fillers reduce end ridges for a more even, tilled finish across entire width, in one pass

DHS65 shown with optional mudscrapers and furrow fillers
